Recommended Next Steps	
• Speaking: Focus on speaking practice - this is your biggest opportunity for improvement. • Writing: Continue practicing writing to strengthen your score.	

DETAILED FEEDBACK

Speaking and Writing Feedback

Speaking

LISTEN & REPEAT

Speaking Task 1

Speaking rubric: 3 / 5

INTERVIEW SPEAKING

Speaking Task 2

Speaking estimate: 15 / 30

Although your responses lacked specific content details due to transcription issues, you demonstrated a clear willingness to engage with complex topics like the balance between academic focus and creative activities. Your primary challenge lies in developing fully formed arguments with concrete examples, as vague points make it difficult for listeners to follow your logic or understand your perspective. To improve, practice structuring each answer by stating a clear opinion followed immediately by a personal story or specific reason that supports your view. Additionally, focus on speaking at a steady pace to ensure your pronunciation remains clear even when you are thinking about what to say next. You have a solid foundation for success, and with targeted practice on expanding your ideas, you will see significant growth in your ability to communicate effectively. Keep practicing these strategies, and you will soon be able to deliver confident, well-organized answers that showcase your true potential.

Writing

BUILD A SENTENCE

8 / 10 correct

2 items to review.

Build a Sentence #1: Syllabus Reading

Sentence does not match the expected answer.

Build a Sentence #4: Registrar Records

Sentence does not match the expected answer.

EMAIL

Group Project Meeting Request

Writing rubric: 3 / 5

You have successfully included all the necessary components of the email task, including the greeting, the reason for writing, a request for availability, and a proposed agenda. However, your score is limited by several spelling errors and incorrect word usage that make the text look unpolished. Additionally, the phrase 'discuss about' is grammatically incorrect; 'discuss' does not take 'about'. To improve, focus on proofreading for spelling and reviewing basic grammar rules regarding verb prepositions.

ACADEMIC DISCUSSION

Remote Work and Productivity

Writing rubric: 3 / 5

You have successfully taken a clear stance and responded to your peers, which is a strong start. However, to reach a higher score, you need to expand on **why** flexibility leads to better collaboration rather than just stating that respect is important. Additionally, be careful with spelling and word choice; using 'preferences' instead of 'will' and correcting typos like 'tegether' will significantly improve the professionalism of your writing.

This PDF is a PrepEx practice estimate. For TOEFL 2026 results, PrepEx shows the 1-6 scale first and includes old-scale values only as reference estimates.
